2011

# SEBO AIRBELT D4: Everything a Good Vacuum Cleaner Should Be. And Much More.

The SEBO AIRBELT D4 is equipped with many extras that will make your life easier! Its "suction-optimized" airflow pathway, together with its one-of-a-kind tapered-hose technology, provides ultra-quiet operation and amazing suction power. And the ergonomically designed handle offers unmatched user comfort and smooth operating maneuverability.

Every detail expresses the highest quality, modern design, reliability, and the standard features SEBO customers throughout the world have come to expect, such as:

- › SEBO's patented AIRBELT Bumper Guard.
- › A power head with amazing steering ability and easy brush roller removal.
- › S-class, hospital-grade filtration, which is excellent for users with allergies or asthma.
- › Long-lasting motor life, which is further extended by its soft-start switch.
- › An adjustable telescopic tube with internal power cord.
- › Available in three colours: Black, red and white.
- › A generous five year warranty on both the motor and all non-wear parts and a one year warranty on labour.

### 1 A 40-foot Power Cord and 50-foot Cleaning Radius.

- › Provides operating comfort for the user. Cleans large areas without the need to change electrical outlets.
- › The power cord is automatically rewound by simply pressing a button.

### 2 6 Litre Filter Bag.

- › The large-capacity filter bag is convenient and economical because fewer bag changes are needed.
- › A display indicates when the filter bag should be replaced, and closing its built-in hygiene cap prevents dust from escaping during removal or disposal.

### 3 LED Suction-Power Indicator.

- › This technology actually makes it possible for the user to optically monitor the vacuum's suction power.
- › When using lower power settings, the LED light rotates slowly. When using higher power settings, the light rotates more quickly.

SEBO AIRBELT D4 shown with optional SEBO KOMBI BRUSH

#### 4 Patented AIRBELT Bumper.

- › The soft, textile-covered foam bumper that surrounds the AIRBELT D4 absorbs bumps to the canister body, thereby protecting furniture, walls and the vacuum itself from incurring scratches and scuffs during use. The AIRBELT Bumper also diffuses exhaust air, which contributes to its ultra-quiet performance.

#### 5 Adjustable Suction-Power Switch on the Handle.

- › The suction power of the AIRBELT D4 can be conveniently adjusted on the hose handle. Therefore, upholstery can be cleaned with stronger suction, yet curtains can be gently vacuumed as well.

#### 6 Four Castors with Rubber-Coated Wheels, Mounted on Bearings and a Steel Axle.

- › The superb castor-wheels glide easily and gently over all floor types, providing exceptional maneuverability and protection of floor surfaces.

#### 7 Convenient Parking and Storage Aid.

- › After the work is done, the suction hose, telescopic tube and the hard floor parquet brush can be firmly stored on the back of the canister.

#### 8 Three full-size, on-board accessory tools.

- › For special cleaning tasks, a crevice tool, a dusting brush and an upholstery nozzle are integrated into the canister body, so they are on-board, easy to remove and ready for use at all times.

#### Compatible with the SEBO ET-1 and ET-2 Power Heads and the SEBO DISCO Floor Polisher.

The ET-1 comes standard, in the box, with black and white D4 Premium machines. The red D4 machine does not come with a power head but must be chosen from the 12" ET-1 or 15" ET-2.

SEBO ET

SEBO DISCO

- › For the daily or periodic cleaning and polishing of certain types of hard floors, the DISCO Floor Polisher is optional and can be attached to the telescopic tube.

#### SEBO Deluxe Parquet Brush

The AIRBELT D4 comes with a deluxe parquet brush that was designed specifically for vacuuming hard floors. It is lightweight with replaceable, natural-bristle strips, so it glides gently over floors and provides easy cleaning maneuverability. The swivel neck allows flat-to-floor capabilities to get under furniture.

**Technical Data:** › Motor Ratings: 1,250 watts / 12 amps total (Canister - 10.2 amps / Power Head - ET-1: 1.6 amps / ET-2: 1.8 amps)  
› BodyWeight: 6.5 – 6.9 kg › Sound Level: 61 dB(A) › Air Flow Motor: 43-45 L/s › Water Lift: 95 inches

# SEBO. The Floor Care Specialist. Made In Germany.

Founded in 1978, SEBO began producing vacuum cleaners that would facilitate cleaning professionals. Innovative, ergonomic and economically practical, SEBO has become the global leader in commercial upright vacuum cleaners. To date, all SEBO machines are still designed and produced in Velbert, Germany. Today, SEBO vacuums professionally clean the floors at the White House in Washington, Buckingham Palace in London, the German Parliament, and leading hotels worldwide, such as the Adlon in Berlin. SEBO is well known for its high level of quality. Our customers understand that "Made In Germany" is a sign of excellence in this day: technically reviewed and well engineered, enduringly designed, easy to use and exceptionally functional.

Your dealer can help you see why SEBO is the best choice for you and your floors.
