

# SEBO K-SERIES

RELIABILITY IS STANDARD™

MADE IN GERMANY

COMPACT, LIGHTWEIGHT AND POWERFUL

# SEBO K-SERIES DESIGNED INNOVATION

Innovation shows in every aspect of the design of the K-Series canisters, from the air belt bumper system to the clever tool storage and easy bag change. These vacuums are light and compact, durable, and powerful.

Modern technology, state-of-the-art design and consistent customer focus are found in all SEBO products. Try a SEBO canister vacuum cleaner and you will be impressed by the outstanding cleaning power, quiet operation, first-class filtering system, and of course, ease of use.

## Easily Accessible, Full-Size Attachments

On-board attachments include the dusting brush, crevice tool and the upholstery nozzle.

## FOR EXTRA REACH:

Attach the upholstery nozzle to the crevice tool

## Special Features of the SEBO *air belt* K-Series Vacuums:

Durability - SEBO canisters are made to last

Light and Compact - Making it easy to operate and store

Powerful Performance

Quiet Operation

Quick-Release - For ease of brush head change

High-Quality Telescopic Tubes - Provide convenient handle-height adjustment

Large Power Control Switch

Cord Retractor

Full-Size On-Board Tools

Full-Size Dust Bag

26-Foot Operating Range

## SEBO *air belt* K2 Premium

## Air Belt Shock Absorber

The soft foam air belt with its durable covering acts as a bumper guard to protect your furniture, walls, and vacuum from damage.

## Ergonomic Handle

The SEBO *air belt* K handle is ergonomically designed and positioned to reduce wrist and arm fatigue. The K3 handle is even more elaborate with an additional swivel built into the handle.

# SEBO K-SERIES POWER AT YOUR FINGER TIPS

The SEBO *air belt* K3 allows for quick and convenient connection of telescopic wands, accessory cleaning heads and on-board tools. The handle also includes a power control slider that adjusts the suction up or down for normal to more delicate cleaning tasks.

## SEBO ET-1

With the four-level manual height-adjustment of the ET-1, you can adjust up or down to clean any level of carpet or hard floors. The ET-1 power head brush action aggressively cleans carpeting. For hard floors and extremely delicate rugs, you can turn the brush roller off by pressing the power switch indicator on the top of the head.

Remove, clean, or change the brush roller with the press of a button. No Tools Required!

## SEBO *air belt* K3

The SEBO *air belt* K3 includes an electrified telescopic wand designed to accommodate the ET-1 power head for thorough brushing and optimal cleaning of your carpet. The K3 also comes standard with the Parquet Brush for use on hard floors.

The power control slider takes the suction power from 0 to 1250 watts.

# SEBO K-SERIES FILTRATION

## The 3-Step Hospital-Grade Filtration System:

- A) First, the four-layer, full-size filter bag collects the vast majority of the debris.
- B) Then, any remaining particles are collected by the hospital-grade micro-filter.
- C) Finally, the micro-exhaust filter cleans the exhaust air that the vacuum emits.
- D) The air belt disperses the filtered exhaust air around the canister which provides a quiet, gentle air flow.

The S-class filtration system, as described above, results in 99.9% effectiveness to 0.3 microns\*, making SEBO K series vacuums the perfect choice for customers with allergies and asthma.

\*Measurement SLG / Chemnitz, SEBO uses only fibreglass-free filters

## SEBO K-SERIES TECHNICAL DATA\*

### CANISTER

### SEBO ET-1

Vacuum Motor	1250 Watts, 10.6 Amps
Air Flow	120 CFM
Water Lift	110 in. H <sub>2</sub> O
Range	26 feet
Cord Length	15 feet
Filter Bag Capacity	3.5 litres
Sound Level	63 dBA
Body Weight	12 lbs.
Motor Protection	Thermal cut-out

Brush Motor	150 Watts, 1.4 Amps,
Width	12 in.
Weight	4.6 lbs.
Brush Width	11 in.
Brush Rollers	Replaceable
Brush Drive	Toothed belt with electronic overload protection

## SEBO K-SERIES WARRANTY

5 years non-wear parts,  
5 years motor,  
1 year labour
